

CATALOG PARTNER PROGRAM

Reach SMB Customers Through an AI-Native Sales Platform

SecureOffice is the platform MSPs and resellers use to design, quote, and order SMB networks. Your products in our catalog means automatic inclusion in every AI-generated proposal.

WHY LIST YOUR PRODUCTS WITH US

AI-Powered Visibility

Our BOM engine auto-selects products based on customer intake. Your catalog items are surfaced to the right buyer automatically.

Built Into Every Proposal

Your products, pricing, and SKUs appear in auto-generated proposals and order documents — no extra sales effort required.

T-Mobile for Business Reach

Exposure to TFB-aligned MSPs and resellers serving the SMB segment across the US.

Streamlined Ordering

Orders flow directly into your provisioning pipeline — less back-and-forth, faster activation.

Dedicated Integration Support

You provide the data. We handle the full catalog setup, pricing logic, and compatibility rules.

Co-Marketing Included

Partners are featured in platform documentation, training materials, and customer-facing design reports.

HOW IT WORKS

1

Submit Catalog

Send us your product data and assets using the requirements on page 2.

2

Integration & QA

We map your SKUs, pricing, and specs into the platform and run compatibility checks.

3

Go Live

Products activate in the AI-BOM engine and appear in proposals from day one.

4

Ongoing Sync

Send catalog updates anytime — we re-integrate on a rolling basis.

WHAT PARTNERS GET

Automatic Recommendations

AI matches your products to qualifying customers at intake — zero prospecting.

Proposal Inclusion

Your brand, specs, and pricing appear in polished customer-facing documents.

Order Routing

Completed orders route to your provisioning system automatically.

Catalog Submission Requirements

What we need from you to integrate your products. **Required** fields must be present for go-live; Optional fields improve AI matching quality.

PRODUCT INFORMATION

FIELD	DESCRIPTION	FORMAT / EXAMPLE
Product Name REQ	Official name as it appears in proposals and order documents	MIX Networks PIAB 90x2
SKU / Part Number REQ	Your internal SKU used in ordering systems	PIAB-90X2-NFR
